

TIMELESS

THE ALL-NEW ES

ES

 **LEXUS**
EXPERIENCE AMAZING

A NEW CHAPTER IN LUXURY.

The all-new ES is crafted with real stature, earned over time, through consistency.
Its silhouette doesn't need over-explaining; it speaks for itself and makes an understated statement on every route.

The Lexus ES has always arrived with quiet confidence.

Since its first introduction in 1989, it has built its reputation in a quieter, more enduring way:
through comfort felt over distance, space that feels generous and beautifully balanced, and craftsmanship that reveals itself slowly in the way the cabin settles around you.

In South Africa, the ES has earned its place as a sedan for those who understand luxury as quiet confidence.

It holds its standard with ease, journey after journey, year after year.

The all-new eighth-generation ES carries that idea forward into a more progressive age, with a new design language, a cleaner and more considered cabin, enhanced safety and connectivity, and a choice between hybrid and all-electric power.

What matters most is the balance between what has evolved and what has stayed true. The ES remains a sedan built around calm, space and composed movement. A car shaped by the quiet confidence of knowing that every detail has been thought through before you ever step inside.

PROGRESSIVE

TWO EXPRESSIONS OF ELECTRIFIED LUXURY.

Progress can be a beautifully considered evolution, offering each driver a choice that allows them to move into the future in the way that feels most natural to them.

The all-new Lexus ES is available in two expressions of electrified luxury: hybrid and electric. Both share the same ES character of calm, comfort and refinement, but each offers a different way to experience it.

ES 350e SE

The fully electric ES, with quiet, immediate performance and selected BEV-only features.

The ES 350e is the more decisive step forward. Fully electric, it takes one of the ES's defining qualities, quietness, and deepens it. Power arrives immediately, the cabin feels even more composed, and the connection between driver, vehicle and road becomes cleaner and more direct.

ES 350h SE

An elevated hybrid expression with added comfort, technology and luxury specification.

ES 350h EX

Hybrid confidence for everyday refinement.

The ES 350h is for those who want progress to feel familiar. Its sixth-generation hybrid system pairs a 2.5-litre petrol engine with a high-output electric motor, allowing the vehicle to move between petrol and electric power with quiet intelligence. In traffic, between meetings or out on the open road, it brings advanced engineering into your day with natural ease.

EFFORTLESS

EVERY JOURNEY, QUIETLY COORDINATED.

In the all-new ES, every journey feels like a choreographed performance.

Built on the reimagined TNGA GA-K platform, the ES has been developed to feel settled, balanced and quietly responsive, whether driven through the city or across longer distances. Its strength lies in making every input feel measured and every movement feel considered.

The steering, suspension and electronic control systems work together to create a drive that feels closely connected to the driver's intent. Acceleration feels smooth and measured. Cornering feels composed and assured. Even at pace, the ES is designed to hold the road with the calm assurance expected of a Lexus.

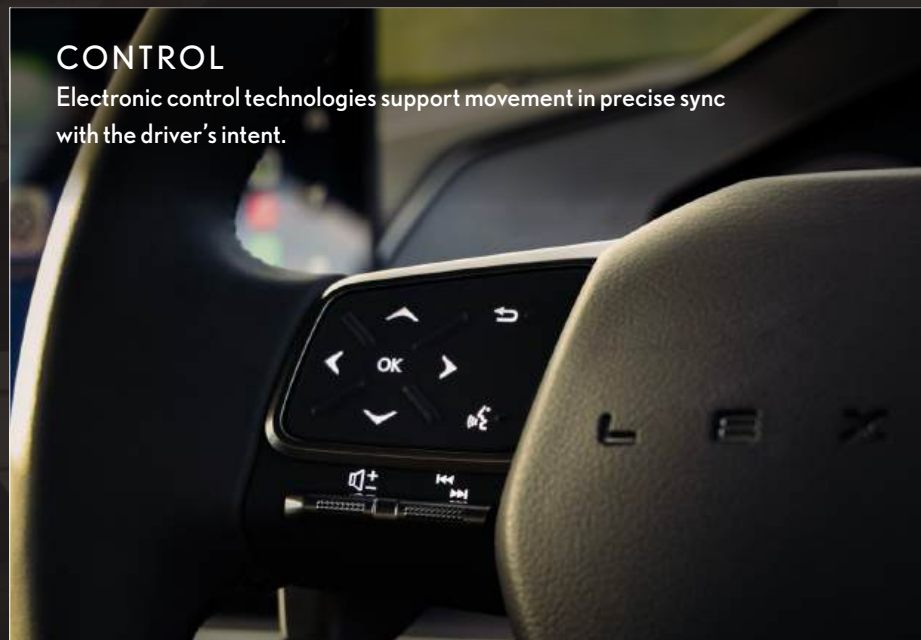

COMPOSURE

Steering, suspension and body control work together to create a settled, confident drive.

CONTROL

Electronic control technologies support movement in precise sync with the driver's intent.

PLATFORM

Reimagined TNGA GA-K platform, developed for both hybrid and battery-electric powertrains.

FINESSSED

EVERY DETAIL IS REFINED.

The all-new ES has been shaped with restraint. Every gesture feels intentional, every surface considered. It has been refined until every line feels natural. At the front, the new-generation spindle body gives the ES a cleaner, more integrated expression. From the side, its lifted stance is balanced by a low centre of gravity, creating a silhouette that feels elegant and grounded. The shoulder contours bring aerodynamic purpose to the shape, while the seamless one-motion profile gives the body a fluid, almost trunkless impression.

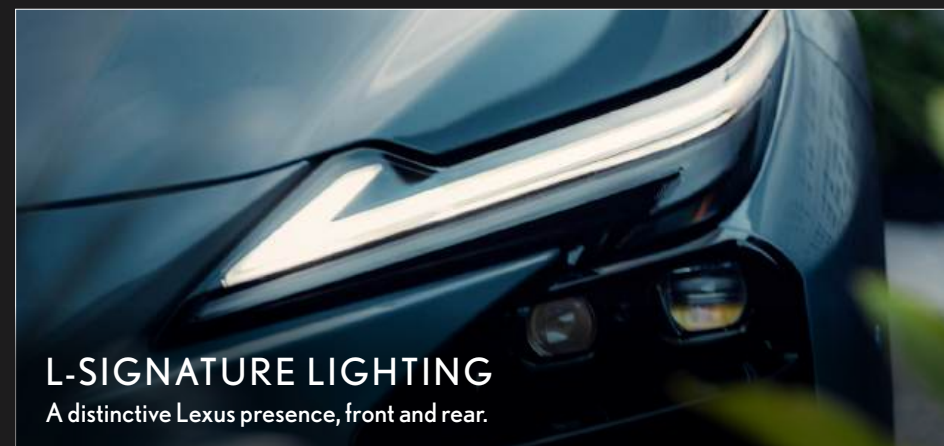

The details carry the same precision. The twin L-shaped signature gives the front of the ES a sharper gaze, while the rear introduces individual L-signature lamps, a sleek light bar and an illuminated Lexus logo that gives the vehicle an unmistakable presence after dark.

The difference between hybrid and electric is expressed subtly. The ES 350h EX and ES 350h SE feature 19-inch aero wheels that balance aerodynamic efficiency with the stance of a premium sedan. The ES 350e SE carries 21-inch luxury wheels, exclusive to the electric model, with a lightweight, layered design that gives it a more progressive presence while preserving the quiet elegance of the car.

MODEL-SPECIFIC WHEELS

19-inch aero wheels for hybrid models. 21-inch luxury wheels for the electric model.

Inside, the same thinking continues. The cabin is built around a simple idea: give every element a clear purpose, then refine it until it feels effortless.

Bamboo layering brings warmth and depth. Precision embossing adds texture to the door trim. Ambient lighting softens the atmosphere.

On SE models, the Mark Levinson® Audio System is integrated into the door trim, allowing even sound to feel part of the cabin architecture.

SEATS

Slimline seats with a refined construction, designed to enhance comfort while preserving a clean, spacious cabin feel.

MARK LEVINSON® AUDIO

Available on SE models, integrated into the door trim for a more considered cabin experience.

BAMBOO LAYERING

A newly developed interior theme that adds warmth, texture and a crafted three-dimensional effect.

DOOR TRIM

Precision embossing and ambient lighting create a refined interior atmosphere.

Comfort is treated with the same care. The panoramic roof brings light into the cabin and opens the sense of space, while selected models offer an electronically dimmable panoramic roof that allows the atmosphere inside the car to shift with a touch.

REAR SEATING

Rear passengers are given the consideration the ES has long been known for, with generous space and available comfort features that make the second row feel like one of the reasons the car exists.

SEAMLESS

TECHNOLOGY THAT APPEARS ONLY WHEN IT IS NEEDED.

A man with a beard, wearing a dark suit and a gold watch, is driving a car. He is looking out the window with a focused expression. The car's interior is visible, showing the steering wheel, dashboard, and leather seats. The background outside the window shows a blurred city street.

Inside the all-new ES, technology has been designed to feel calm, intuitive and beautifully integrated. It supports the journey quietly, appearing where it is needed and receding with the same ease.

The cockpit is shaped around the Lexus *Tazuna* concept, creating a more natural connection between driver, vehicle and road. The 12.3-inch digital display is positioned for smooth eye movement, while the low-profile metre hood helps the cabin feel open and calm.

Responsive hidden switches are integrated into the interior surfaces and illuminate only when needed. The result is a cleaner cabin that keeps every function close at hand, while allowing the space to feel open and considered.

The compact shift-by-wire lever continues the same thought, freeing space, simplifying the console and giving a familiar interaction a more precise feel. Around it, the front and rear consoles are designed for easy daily use, with storage and convenience considered from both rows.

Safety is part of this seamlessness too. Lexus Safety System+ brings advanced driver assistance technologies into the drive, helping support awareness, anticipation and control, so confidence can feel constant.

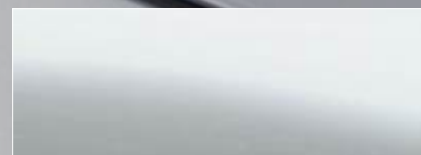

EXPRESSIVE

A QUIETER WAY TO MAKE IT YOURS.

A car like the ES makes its statement quietly, through the details that feel right to you. The all-new ES is available in a curated range of exterior colours, including the newly introduced Crystal Blue. Each shade has been selected to work with the sculpted surfaces of the vehicle, allowing light to move across its form with subtlety and depth.

Inside, the available interior themes continue the same sense of quiet sophistication, pairing refined materials with considered finishes to create a cabin that feels personal, balanced and beautifully resolved.

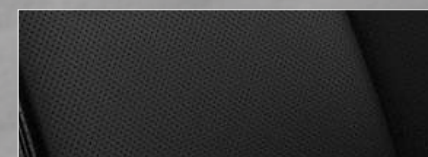

Whether hybrid or electric, classic or more progressive in character, every version of the ES returns to the same feeling: a sedan with space, a drive with composure, a cabin with quiet craft, and a future that feels clear, natural and beautifully composed.

EXPERIENCE ULTIMATE CONNECTIVITY WITH MYLEXUS

All Lexus vehicles can now be connected to the MyLexus App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features so that you can:

IN-CAR Wi-Fi*
Connect to Wi-Fi

SERVICE BOOKING
Manage your services

GPS LOCATOR
Always know your vehicle's GPS location

ROADSIDE ASSISTANCE
Get real-time roadside assistance

LOGBOOK
Have access to a digital logbook

DRIVER RATING
Receive a driver rating

DRIVER NOTIFICATIONS
Important reminders like licence renewal

FLEET MANAGEMENT
Monitor your fleet

BATTERY HEALTH CHECK
Check your battery health

LICENCE RENEWAL
Car licence renewal available

AND MORE

The above features are not all; there are loads of other features available to further enhance driver and guest safety, convenience and comfort, and plenty more to come to make your driving experience better and better with every kilometre.

DOWNLOAD THE MYLEXUS APP
AND GET CONNECTED TODAY

LEXUS MAINTENANCE

INTRODUCTION

At Lexus, we take pride in the advanced engineering and craftsmanship of the vehicles we build. For that reason, our Warranty and Distance Plans are designed to provide Lexus owners with seamless vehicle maintenance and complete peace of mind. The Lexus Warranty and Distance Plans both enjoy full support by Lexus SA and offer customers access to specialised servicing, maintenance and repair at any Lexus dealer in South Africa, Namibia and Botswana.

WARRANTY AND DISTANCE PLANS

To complement its comprehensive Warranty, the ES features a Distance Plan Complete that provides for service and maintenance costs. The option to extend the period of cover is available for both the Warranty and Distance Plan Complete. These options can be discussed with your Lexus dealer. To familiarise yourself with the cover provided by Warranty and Distance Plan on the ES, please consider the information below.

WARRANTY

- EV Battery Warranty: 8 years/160 000kms
- Service interval: 12 months/15 000kms
- Warranty: 7 years/105 000kms

DISTANCE PLAN

The ES features a Distance Plan Complete that incept with the vehicle's Warranty.

- Maintenance Plan: 7 years/105 000kms

Consult with your Lexus dealer for more information on the terms and conditions of the Warranty and Distance Plan Complete offered on the ES.
